Revision 1.4

# Information Security Policy Statement

Newton IT is committed to continuous improvement in Information Security to fulfil our company management principles which are;

1) Loyalty and Commitment, 2) Value and Performance and 3) Challenge and Innovation.

To manifest this commitment, we pledge to:

1. Annually review and refine our security policies
2. Source security insights relevant parties and harness cutting-edge technologies in our operations
3. Regularly update our employees on security policies and guidelines
4. Improve all aspects of our operation to maximise the benefit of Information Security skills to all stakeholders
5. Monitor the evolving security landscape, responding swiftly and adeptly to potential threats, with an aim to reduce and mitigate risks
6. Align our Information Security policies and goals with ISO27001 standards
7. Undertake yearly internal audit and third-party assessments to verify adherence to established standards and procedures
8. Address and rectify any non-conformities identified during audits and assessments
9. Ensure our ISMS (Information Security Management System) policies and objectives are in harmony with our strategic direction and operational processes
10. Allocate adequate resources to support ISMS initiatives
11. Empower our staff to realize our objectives and aims of ISMS policies
12. Encourage staff contributions to fortify the efficacy of the ISMS
13. Bolster relevant managerial roles in exemplifying their leadership in Information Security
